Introduction

Bibliography

Preliminary note

The material in these slides is strongly based on [1]. When other materials are used, they are cited accordingly.

Mathematical notation follows as good as it can a [good practices proposal](https://ctan.math.utah.edu/ctan/tex-archive/macros/latex/contrib/mlmath/mlmath.pdf) from the Beijing Academy of Artificial Intelligence

Academy of Artificial Intelligence.

things to define here:

•

course 2023-2024

Dirk P. Kroese, Zdravko Botev, Thomas Taimre, and Radislav: Vaisman.

Data Science and Machine Learning: Mathematical and Statistical Methods.

Machine Learning & Pattern Recognition. Chapman & Hall/CRC, 2020.
